*January 2011*

The Children's Services' *Directory of Minnesota Organizations Serving Diverse Populations* is a reference guide of nonprofit social service organizations, tribal governments, state agencies, and mental health practitioners, who identify themselves as serving culturally specific or diverse populations in Minnesota. Providers are categorized by their service to one of five cultural groups: African American—African, American Indian—Native American, Asian—Southeast Asian, Latino—Chicano, or Multicultural—European American. Each listing includes the name of the agency, address, phone number, fax number, e-mail address, web site, and type of services provided (*as available*). The various services offered by these agencies and practitioners are classified as child welfare services, community action and education, family support services, human services, mental health services, or resource information and referral.

**The inclusion of agencies and/or practitioners in this directory is not an endorsement by the Minnesota Department of Human Services.**
