

Court File No. _____

Petitioner,

AFFIDAVIT OF
AMY S. WALSTIEN

Respondents.

Amy S. Walstien, being first duly sworn, hereby deposes and states as follows:

2. Attached as Exhibit 1 is a true and correct copy of a summary analysis that I prepared while analyzing certain ballots challenged by the campaigns because the original ballot did not have a corresponding properly marked duplicate ballot. In preparing this summary, I also relied on incident reports prepared by local election officials, summary statements provided by local election officials after the Recount, and

documents from local election officials showing the number of votes cast on election night as recorded by the electronic voting machines ("Machine Tapes").

3. Attached as Exhibit 2 are true and correct copies of the original ballots referred to in Exhibit 1.

4. Attached as Exhibit 3 are true and correct copies of summary statements prepared by local election officials during the Recount.

5. Attached as Exhibit 4 are true and correct copies of incident reports drafted by Cynthia Reichert, Director of Elections of the City of Minneapolis during the Recount and subsequently provided to the Secretary of State and to my colleague, Tony Trimble. Also included in Exhibit 4 are true and correct copies of incident reports prepared by local election officials from Robbinsdale and St. Louis Park in Hennepin County, Dakota County and St. Louis County.

6. Attached as Exhibit 5 are true and correct copies of election night Machine Tapes showing the number of votes cast in a precinct on election night.

7. I, with assistance from others working under my direction, have reviewed incident logs prepared by Recount Officials during the Recount reporting approximately 600 separate "incidents." These incident logs describe a variety of issues and incidents that occurred during the Recount, including approximately 150 different instances involving questions or problems with duplicate and original ballots (with each incident involving at least one and up to more than 20 separate ballots). Specifically, several precincts throughout the state had non-matching original ballots ("Non-Matching Original Ballots") that, if counted, would exceed the number of voters who had voted

according to the election night tapes. These Non-Matching Original Ballots were challenged by both candidates and are attached at Exhibit 2.

8. After the completion of the manual recount, a number of challenged ballots were presented to the Board, including all of the Non-Matching Original Ballots, so that the Board could make a decision concerning whether these ballots should be counted. To date, these challenged Non-Matching Original Ballots have been included in county summary statements as challenged ballots.

9. Attached as Exhibit 6 is a true and correct copy of the Secretary of State Recount Plan, dated November 18, 2008. This was made publicly available through the Secretary of State's website at <http://www.sos.state.mn.us/home/index.asp?page=1405>.

10. Attached as Exhibit 7 is a true and correct copy of an email string including an email from Deputy Secretary of State Gary Poser to local election officials, dated November 19, 2008.

11. Allegations have been made that an envelope of ballots from Minneapolis Ward 3, Precinct 1 were lost prior to the Recount. Because the Recount vote totals were less than the election night vote totals, Minneapolis certified alternative numbers (election night numbers and Recount numbers) to the State Canvassing Board. It is my understanding, based on testimony from Cynthia Reichert to the Board, that 131 ballots were determined to be missing during the Recount, and hence not included in the Recount totals reported on the Recount Summary Statement from this precinct. The Board voted unanimously to ignore the Recount Summary Statement totals and, instead,

certify the votes as recorded on election night and reflected within the Machine Tapes for this precinct.

12. Attached as Exhibit 8 is a true and correct copy of Rachel Stassen-Berger, *Day 3: Franken Poised to Take The Lead*, Pioneer Press, Dec. 18, 2008.

FURTHER AFFIANT SAYETH NOT.

Amy S. Walstien

Subscribed and sworn to before me
this 19th day of December, 2008.

SCHOOL DISTRICT BALLOT QUESTION 1
STRONG SCHOOLS' STRONG CITY REFERENDUM

The Board of Special School District No. 1, Minneapolis Public Schools, has proposed to revoke the school district's existing referendum revenue authorization of \$615 per pupil and replace that authorization with a new authorization of \$1,200 per pupil beginning with taxes payable in 2009. The revenue will be used to develop early reading skills, bolster math and science programs, provide up-to-date technology and textbooks and manage class size for the benefit of the children of Minneapolis. The maximum amount of increased revenue per pupil will be \$1,200. Beginning in 2010, the amount will be increased each year by the rate of inflation. The rate of inflation is the increase in the Consumer Price Index for urban consumers reported by the U.S. Bureau of Labor Standards. The proposed revenue would be authorized for eight years, unless otherwise revoked or reduced as provided by law.

The maximum amount of increased revenue per pupil will be \$1,200. Beginning in 2010, the amount will be increased each year by the rate of inflation. The rate of inflation is the increase in the Consumer Price Index for urban consumers prepared by the U.S. Bureau of Labor Standards. The proposed revenue would be authorized for eight years, unless otherwise revoked or reduced as provided by law. ☐ ROGER CALERO AND ALYSON KENNEDY Socialist Workers		☐ RAHN V. This revenue will be used to develop early reading skills, bolster math and science programs, provide up-to-date technology and textbooks and manage class size for the benefit of the children of Minneapolis. The maximum amount of increased revenue per pupil will be \$1,200. Beginning in 2010, the amount will be increased each year by the rate of inflation. The rate of inflation is the increase in the Consumer Price Index for urban consumers prepared by the U.S. Bureau of Labor Statistics. CITY REFERENDUM**

The Board of Special School District No. 1, Minneapolis Public Schools, has proposed to revoke the school district's existing referendum revenue authorization of \$615 per pupil and replace that authorization with a new authorization of \$1,200 per pupil beginning with taxes payable in 2009. This revenue will be used to develop early reading skills, bolster math and science programs, provide up-to-date technology and textbooks and manage class size for the benefit of the children of Minneapolis. The maximum amount of increased revenue per pupil will be \$1,200. Beginning in 2010, the amount will be increased each year by the rate of inflation. The rate of inflation is the increase in the Consumer Price Index for urban consumers prepared by the U.S. Bureau of Labor Standards. The proposed revenue would be authorized for eight years, unless otherwise revoked or reduced as provided by law.

SCHOOL DISTRICT BALLOT QUESTION 1 STRONG SCHOOLS STRONG CITY REFERENDUM

The Board of Special School District No. 1, Minneapolis Public Schools, has proposed to revoke the school districts existing referendum revenue authorization of \$815 per pupil and replace that authorization with a new authorization of \$1,200 per pupil beginning with taxes payable in 2009. This revenue will be used to develop early reading skills, bolster math and science programs, provide up-to-date technology and textbooks and manage class size for the benefit of the children of Minneapolis. The maximum amount of increased revenue per pupil will be \$1,200. Beginning in 2010, the amount will be increased each year by the rate of inflation. The rate of inflation is the increase in the Consumer Price Index for urban consumers prepared by the U.S. Bureau of Labor Statistics. The proposed revenue would be authorized for eight years, unless otherwise revoked or reduced as provided by law.

Shall the school district's existing referendum revenue authorization be revoked and the increase in the revenue proposed by the Board of Special School District No. 1, Minneapolis Public Schools be approved?

SCHOOL DISTRICT BALLOT QUESTION 1 STRONG SCHOOLS STRONG CITY REFERENDUM

The Board of Special School District No. 1, Minneapolis Public Schools, has proposed to revoke the school district's existing referendum revenue authorization of \$615 per pupil and replace that authorization with a new authorization of \$1,200 per pupil beginning with taxes payable in 2009. This revenue will be used to develop early reading skills, bolster math and science programs, provide up-to-date technology and textbooks and manage class size for the benefit of the children of Minneapolis. The maximum amount of increased revenue per pupil will be \$1,200. Beginning in 2010, the amount will be increased each year by the rate of inflation. The rate of inflation is the increase in the Consumer Price Index for urban consumers prepared by the U.S. Bureau of Labor Standards. The proposed revenue would be authorized for eight years, unless otherwise revoked or reduced as provided by law.

Shall the school district's existing referendum revenue authorization be revoked and the increase in the revenue proposed by the Board of Special School District No. 1, Minneapolis Public Schools be approved?

This revenue will be used to develop early reading skills, bolster math and science programs, provide up-to-date technology and textbooks and manage class size for the benefit of the children of Minneapolis. The maximum amount of increased revenue per pupil will be \$1,200. Beginning in 2010, the amount will be increased each year by the rate of inflation. The rate of inflation is the increase in the Consumer Price Index for urban consumers prepared by the U.S. Bureau of Labor Standards. The Board of Special School District No. 1, Minneapolis Public Schools, has proposed to revoke the school district's existing referendum revenue authorization of \$615 per pupil and replace that authorization with a new authorization of \$1,200 per pupil beginning with taxes payable in 2008. This revenue will be used to develop early reading skills, bolster math and science programs, provide up-to-date technology and textbooks and manage class size for the benefit of the children of Minneapolis. The maximum amount of increased revenue per pupil will be \$1,200. Beginning in 2010, the amount will be increased each year by the rate of inflation. The rate of inflation is the increase in the Consumer Price Index for urban consumers prepared by the U.S. Bureau of Labor Standards. SCHOOL DISTRICT BALLOT
 QUESTION 1
 STRONG SCHOOLS/STRONG CITY REFERENDUM

The Board of Special School District No. 1, Minneapolis Public Schools, has proposed to revoke the school district's existing referendum revenue authorization of \$915 per pupil and replace that authorization with a new authorization of \$1,200 per pupil beginning with taxes payable in 2009. This revenue will be used to develop early reading skills, bolster math and science programs, provide up-to-date technology and textbooks and manage class size for the benefit of the children of Minneapolis. The maximum amount of increased revenue per pupil will be \$1,200. Beginning in 2010, the amount will be increased each year by the rate of inflation. The rate of inflation is the increase in the Consumer Price Index for urban consumers prepared by the U.S. Bureau of Labor Standards. The proposed revenue would be authorized for eight years, unless otherwise revoked or reduced as provided by law.

☒ YES
☐ NO

BY VOTING "YES" ON THIS BALLOT QUESTION, YOU WILL BE VOTING FOR A PROPERTY TAX INCREASE.

SCHOOL DISTRICT BALLOT
QUESTION 1
STRONG SCHOOLS STRONG CITY REFERENDUM

The Board of Special School District No. 1, Minneapolis Public Schools, has proposed to revoke the school district's existing referendum revenue authorization of \$815 per pupil and replace that authorization with a new authorization of \$1,200 per pupil beginning with taxes payable in 2009. This revenue will be used to develop early reading skills, bolster math and science programs, provide up-to-date technology and textbooks and manage class size for the benefit of the children of Minneapolis. The maximum amount of increased revenue per pupil will be \$1,200. Beginning in 2010, the amount will be increased each year by the rate of inflation. The rate of inflation is the increase in the Consumer Price Index for urban consumers prepared by the U.S. Bureau of Labor Standards. The proposed revenue would be authorized for eight years, unless otherwise revoked or reduced as provided by law.

Shall the school district's existing referendum revenue authorization be revoked and the increase in the revenue proposed by the Board of Special School District No. 1, Minneapolis Public Schools be approved?

☒ YES

☐ NO

BY VOTING "YES" ON THIS BALLOT, QUESTION, YOU WILL BE VOTING FOR A PROPERTY TAX INCREASE.

11-20	W3 continued	Rachael requested W3 remain open until W4 is counted due to possibility of any W3 ballots in W4. Bill Walsh desired to certify W3 as counted. Tom Marshall decided to leave W3 open due to expected no chance of W3 ballots being in W4 transfer boxes, w/ understanding that once W4 is counted & certified that W3 would be counted & certified as well. Additionally, Recount officials and candidate representatives searched City Vault where unvoted ballots are stored along w/ storage boxes from W3- and ballot boxes from W3- no additional voted ballots were found.

Proof and E-Mail Ballot

CEDAR VALLEY

In the course of recounting ballots for Precinct _____, "proof ballots" and/or "e-mail ballots" (collectively, "proof ballots") were discovered mixed in with the machine ballots counted at the polling place. These "proof ballots" are used to accommodate absentee voters who need to vote prior to the actual ballots being delivered or are e-mail ballots downloaded by overseas citizens as permitted by state law this year for the first time. Judges in precincts with machine vote tabulators should duplicate the "proof ballots" at the polling place as set forth under Minnesota law in order for them to be tabulated by voting equipment. The discovered "proof ballots" contained no indications that they were properly duplicated. Further, none of the other ballots for this precinct contained any indicia that the ballots constituted the statutorily required duplicate ballots for the "proof ballots" discovered with the other ballots counted at the polling place. Proof ballots were not counted for candidates or included in the totals for each candidate. However, the proof ballots were marked as challenged, placed in the challenge ballot envelope, and included in the challenged ballot totals for this precinct.

Duluth Precinct #4 Incident Report

In the course of recounting ballots for Duluth Precinct #4, eight ballots marked "Duplicate #1," "Duplicate #2," "Duplicate #3," "Duplicate #4," "Duplicate #5," "Duplicate #7," "Duplicate #8," and "Duplicate #10," were found. No ballots marked Duplicate #6 or Duplicate #9 were found. In addition, an envelope marked "Ballots For Which Duplicates Were Or Are To Be Made" was found. The recount official opened the envelope. Inside were 11 ballots marked as "original" ballots. There were two ballots marked "Original #1," and nine additional ballots marked as "original" ballots in an uninterrupted sequence from Original #2 through Original #10. The votes on one of the ballots marked "Original #1" matched the votes on the ballot marked "Duplicate #1." The original ballots were sorted and counted. The corresponding duplicate ballots were not counted. The Coleman observer challenged one of the two ballots marked "Original #1" and the ballot marked "Original #9." The votes on the challenged ballot marked "Original #1" did not match the votes on the ballot marked "Duplicate #1" discussed above. Both Coleman challenge stickers are inscribed "Special Circumstances, no corresponding duplicate, see incident report." The Franken observer challenged the ballot marked "Original #6." The Franken challenge sticker is inscribed "Special Circumstances, no corresponding duplicate, see incident report."

SECRETARY OF STATE

RECOUNT PLAN

November 18, 2008

Recount Scope

The votes cast at the November 4, 2008 State General Election for the office of United States Senate for Norm Coleman and Al Franken in all the counties of Minnesota.

The votes cast at the November 4, 2008 State General Election for the office of State Senate, District 16 for Lisa A. Fobbe and Alison Krueger in Benton, Mille Lacs, Morrison and Sherburne Counties.

The votes cast at the November 4, 2008 State General Election for the office of State Representative, District 12B for Al Doty and Mike Lemieur in Morrison and Crow Wing Counties.

The votes cast at the November 4, 2008 State General Election for the office of State Representative, District 16A for Gail Kulick Jackson and Sondra Erickson in Benton, Mille Lacs, Morrison and Sherburne Counties.

The recount is limited in scope to the determination of the number of votes validly cast for the candidates to be recounted. Only the ballots cast in the election and the summary statements certified by the election judges may be considered in the recount process.

State Recount Official

Gary Poser, Director of Elections, Office of the Minnesota Secretary of State is hereby designated State Recount Official.

Designated Recount Officials

The State Recount Official will designate officials to perform a recount of all ballots cast for United States Senate, Senate District 16 and House Districts 12B and 16A. See the attached schedule for the individuals designated as Recount Officials and for the number of teams of Table Officials at each recount location.

Recount Schedule

Deputy Recount Officials are authorized to commence recounting the ballots at any time after 8 a.m., Wednesday, November 19, 2008 pursuant to the authority of the Deputy Recount Officials as described in the Recount Procedures.

The recount official may alter the schedule if a recount location becomes unavailable, or if in the opinion of the recount official the change is necessary to permit the recount to proceed promptly and efficiently. The change must not unnecessarily delay the progress of the overall recount. If a change is necessary the following applies:

- a) A change to time or location must be clearly posted in the office of the recount official and at the originally scheduled location.
- b) The recount official must immediately notify the State Recount Official of the change.

Recount Process

The recount shall be open to the public.

The recount shall proceed according to *Minnesota Statutes* §204C.35 and *Minnesota Rules Chapter* 8235, and to the Recount Procedures attached to this Plan and adopted by the State Canvassing Board.

In jurisdictions with multiple recounts under this plan, challenged ballots shall be returned to the ballots for the precinct in which the ballots were cast in order for the ballot to be counted in any subsequent recount. After the last recount in that jurisdiction, ballots challenged in any of the multiple races shall be sealed in envelopes noting each of the races in which the ballot is challenged.

Deputy Recount Officials will print use the recount summary statement as provided by the State Recount Official. A template of the recount summary statement is attached to this Plan.

All county and local election officials are hereby directed to provide the sealed election materials, including voted ballots and precinct summary statements from the 2008 state general election to the recount official designated for that jurisdiction.

The Deputy Recount Officials shall forward in a secure manner directed by the State Recount Official, the completed recount summary statement, the incident log, and all challenged ballots to the State Recount Official, who shall secure the challenged ballots, compile the results and prepare the recount report for the State Canvassing Board.

Meeting of the State Canvassing Board

The State Canvassing Board will meet to resolve the disposition of the challenged ballots and to canvass the results of the recounts on December 16, 2008 at Saint Paul, Minnesota at 9 AM.

The meeting will continue until the reports of the recounts authorized in this plan are completed and may recess from time to time.

Minnesota Secretary of State's Administrative Recount Procedures For the General Election, November 4, 2008

The US Senate recount is an administrative recount held pursuant to Minnesota Statutes, section 204C.35 and Minnesota Rules, section 8235.

1. Recount locations are open to the public and the media and there will be a public viewing area in each recount location. Cell phones and video cameras may be used in the public viewing area, as long as their use is not disruptive.
2. The State Canvassing Board will appoint a Deputy Recount Official for each recount location throughout the state. The Deputy Recount Official may designate an Assistant Deputy Recount Official to preside whenever he or she needs to leave the room. The Deputy Recount Official or a designated Assistant Recount Official must be in the room at all times while ballots are being counted. The Deputy Recount Official shall appoint as many Table Officials as he or she deems appropriate. Only the Deputy Recount Official, the Assistant Recount Official, and the appointed Table Officials may touch the ballots. The Deputy Recount Official shall determine and publicly announce the schedule for the recount, including the start and end times and all breaks within each day, and any changes in the schedule. The candidates' Lead Representatives may appeal to the Deputy Recount Official for modifications to the schedule.
3. All ballots properly cast on Election Day, and all non-rejected absentee ballots properly cast and received by an election official before 8:00 p.m. Election Day (including those cast by voters who were in line to vote by 8:00 p.m. on Election Day) will be counted.
4. All candidate representatives must present written credentials to the Deputy Recount Official and each candidate must designate one representative as his Lead Representative at each counting location.
5. The Lead Representative may serve as a "Roving Representative" who is allowed in the counting area to answer questions from other representatives of that candidate, but are not necessarily assigned to a counting table. A second Roving Representative is allowed at the discretion of each candidate.
6. Ballots, as defined in paragraph 3, will be sorted and counted by teams of at least two Table Officials, who shall be designated by the Deputy Recount Official.

7. Each candidate may have one representative who is authorized to challenge ballots at each counting table. If the Deputy Recount Official determines that there is adequate space at each Table, each candidate may add a second representative to the table to observe the sorting and counting of the ballots, provided both candidates have a second representative to add to the Table(s). Only one representative for each candidate, who shall be designated by the candidate's Lead Representative to challenge ballots, will be allowed to challenge ballots. If the candidate representative who is authorized to challenge ballots believes a ballot presents a unique situation that has not previously presented itself, he or she may request that the ballot be set aside and discussed at the end of the sorting process when the candidate's Roving Representative is available to advise the candidate's representative. This clause shall not apply when the candidate does not have a Roving Representative at that ballot counting location.
8. One of the Table Officials will sort the ballots into three piles, based upon the principles of voter intent outlined in Minnesota Statutes, section 204C.22: one pile for Coleman, one for Franken, and one for all other ballots (those for other candidates, undervotes, overvotes, etc.). The Table Official must make it clear into which pile he or she is placing the ballot and allow both candidates' representatives to view the ballot. Candidate representatives are not allowed to touch or otherwise handle a ballot.
9. As the Table Official sorts the ballots, he or she shall remove all ballots that are marked as duplicate ballots and place those duplicate ballots in a fourth pile. At the conclusion of the sorting process, the Table Official shall open the envelope of original ballots for which duplicates were made for that precinct and sort the original ballots in the same manner as they sorted all other ballots. The Table Official shall disregard this step if there is not an envelope of original ballots, in which case the duplicate ballots will be sorted.
10. The candidate's representative authorized to challenge ballots at a Table may challenge the decision of which of the three piles the Table Official place a ballot. He or she must state a reason for the challenge pursuant to M.S. (2008) Section 204C.22. Challenges may not be automatic or frivolous. The Table Official will reexamine the ballot to determine into which pile it should be placed. If either candidate's representative who is authorized to challenge ballots does not agree with the Table Officials' final determination, the ballot will be placed in one of two new piles of challenged ballots. One pile of challenged ballots will be for all ballots challenged by Coleman's representative; the second pile of challenged ballots will be for all ballots challenged by Franken's representative. Challenges may be withdrawn at any time.

11. When all ballots for the precinct have been sorted, each pile will then be counted by creating stacks of 25 ballots, which shall be cross-stacked into five distinct piles – one for Coleman ballots, one for Franken ballots, one for all other non-challenged ballots, one for ballots challenged by the Coleman Representative and one for ballots challenged by the Franken Representative. The Table Officials will each count one of the candidate's piles. The Table Official who is done first will then count the pile of other ballots, and the piles of challenged ballots. Vote counts for each candidate, all other ballots, ballots challenged by Coleman's representative and ballots challenged by Franken's Representative will be announced and recorded. Either candidate's representative may ask to have a pile counted a second time.
12. A label will be placed on white space on the back of the challenged ballot that will note the precinct, the candidate whose representative made the challenge, and the reason for the challenge pursuant to M.S. (2008) Section 204C.22. Each of the challenges will be given a sequential number, starting with all ballots challenged by Coleman's representative and continuing with all ballots challenged by Franken's representative. For example, if each candidate's representative challenges five ballots in a single precinct, the five challenged ballots by Coleman's Representative shall be numbered one through five; the five ballots challenged by Franken's Representative shall then be numbered six through ten.
13. Vote totals will be noted on the recount summary statement. Challenged ballots are recorded in the Challenged by Coleman column or the Challenged by Franken column. Challenged ballots are placed in a Challenged Ballots Envelope. Once the ballots are all counted and recorded, the original ballots for which there were duplicates made shall be placed back in their original envelope and the pile of duplicate ballots shall be placed back with all other ballots. The preceding sentence shall not apply to original ballots that were challenged by either candidate. Those original ballots shall be placed in a challenged ballot envelope.
14. At the end of each day, the Deputy Recount Official will make four copies of the recount summary statements referenced in paragraph 13, recount incident logs as defined in this paragraph, and both sides of each challenged ballot. One copy of each item will be retained by the Deputy Recount Official, one will be forwarded to the Office of the Secretary of State, and one copy will be provided to each Lead Representative for each candidate. If the Table Officials must leave the room to make the copies, they will be accompanied by each candidate's representative and the names of everyone who left the room with the ballots will be noted on an incident log. The incident log shall also be used to record any other activity that the Table Officials believe should be recorded, including, but not limited to, the names of all individuals at the Table.
15. After copies have been made, the Deputy Recount Official shall seal the original challenged ballots in one envelope, the Deputy Recount Official's copies in another envelope and the copies for the Office of the Secretary of State in a third envelope. At least two Table Officials will sign over the seal of all 3 envelopes.

16. Challenged ballots must be stored securely during breaks in the counting process, at night if the recount for the County or City has not finished, and after the counting is complete. No lunch break shall be taken during the middle of the sorting and counting process for a single precinct. The counting and sorting of a precinct must conclude before the Table concludes the recount procedures for that day.

Preparation for the Canvassing Board Meeting on December 16:

- 1 The Recount Summary Statements and each of the challenged ballots will be presented to the Canvassing Board for resolution of the challenge.
2. A candidate's representative may present the basis of the challenge to the Canvassing Board. This presentation may be in written and/or oral form. The opposing candidate's representative may respond to the challenge and state why he or she believes the original determination of the Table Official should be upheld.

Subject: FW: Recount items of note

Good Evening:

The following e-mail was sent to all Deputy Recount Officials. It is an attempt to clarify many of the most asked questions we have received from Candidate Representatives and election officials throughout the day. While there were many questions, it does appear that most of the sorting and counting went well. Several small counties have completed their task. We did our best to respond quickly to problems and questions that were brought to our attention.

Our Website will summarize most of the day's work tonight at 8:00 p.m., although we have hear that Olmsted County will be working until 9:00 p.m.

Please don't hesitate to call if you have questions or concerns.

My best regards.

Sincerely,

Jim

Good Evening:

I would like to once again thank everyone who participated in the Statewide Senate recount today. Your efforts on this recount will never be forgotten by our office.

During the day, a number of questions have come up about unique situations. I would like to clarify some of the issues we heard most often.

Challenged Ballots

It is the right of a candidate's representative to challenge any ballot cast. They must state the reason for the challenge. A Deputy Recount Official or Table Official has the right to express an opinion that he or she believes the challenge is either frivolous or does not fall within the scope of items that can be challenged. Entire precincts cannot be challenged, a specific challenge must be made on voter intent of each ballot under 204C.22. The challenger must say what is the identifying mark made by the voter to intended to identify the ballot. However, the candidate's representative has the final say on voter intent challenges. If he or she wants to challenge a ballot based on voter intent, it is up to the State Canvassing Board to rule on the validity of the challenge. A Deputy Recount Official or Table Official can not refuse to allow a candidate's representative to challenge a specific ballot.

Lack of Judges Initials: Under M.S. 204C.20 Subd. 2, the absence of either or both sets of initials of the election judges must not be the basis of a challenge in a recount.

Remember to copy both sides when making the 4 copies of the challenged ballots. OSS will provide instructions to courier the challenged ballots. Until to receive instructions, keep the challenged ballots secure.

On a separate note of confusion:

If candidate A's representative challenges a ballot, and, upon further examination, the Table Official has the discretion to agree with the challenge made by candidate A's representative. In other words, the Table Official changes his or her mind and places the ballot in the pile suggested by candidate A's representative. At that point, candidate B's representative has the option of issuing a challenge and the ballot would then be placed in the pile set aside for ballots challenged by candidate B.

Duplicate Ballots

It is the opinion of our Office that Rule 9 is clear about the process to be used when duplicate ballots are found during the sorting process. Those ballots are to be removed from the sorting process and placed in a separate pile. If there is an envelope of original ballots, the original ballots should then be sorted. If there are no duplicate ballots found during the sorting process, the canvass board has not authorized the envelope of original ballots to be opened and the original ballots envelope should remain sealed. If no envelope of original ballots exist, the duplicate ballots should then be sorted. While there is no requirement to compare the number of duplicate ballots to the number of original ballots, if there is an apparent significant discrepancy in the numbers, the candidates' representatives should attempt to agree on whether to sort the original or duplicate ballots. The Deputy recount official shall note on the incident log if the duplicates rather than original ballots were counted. If the two candidate representatives can not agree, the Deputy Recount Official shall sort and count the original ballots. I hope this provides additional clarity.

Back of Ballots

If asked, table officials must allow candidate representatives to examine both the front and back of all ballots. There may be identifying marks on the back of a ballot that could trigger a challenge to the entire ballot. A quick method to accomplish this is to take the oriented ballots and look through the back sides for identifying marks, then turn the ballots over and sort into the candidate piles.

Keep All Unauthorized Individuals Out of the Sorting and Counting Area

The only individuals who are allowed to be in the sorting and counting areas are the Deputy Recount Official, the Assistant Deputy Recount Official, the Table Officials (at least two, and not more than three, at each table), the Candidates' Lead Representatives (one per candidate) may serve as a roving representative, and a second Roving Representative is allowed at the discretion of each candidate, and one candidate representative for each candidate at each table. If space allows, the Deputy Recount Official can authorize each candidate to have a second candidate's representative at one or more tables, provided both candidates have enough staff for each of the candidates to have two representatives at that table. If there are two candidate representatives at a table,

only one representative shall be authorized to challenge ballots.

Candidate Representative Designation

All candidate representatives must have a letter on original letterhead from the candidate's campaign or law firm designating them as an official representative of the candidate.

Gary.

Day 3: Franken poised to take the lead

By Rachel E. Stassen-Berger

Article Last Updated: 12/18/2008 03:59:40 PM CST

Democratic Senate candidate Al Franken is poised to take a lead in the race's recount today or tomorrow.

The lead likely will not last.

Throughout the recount, Republican Sen. Norm Coleman has had a slim vote advantage.

But the state canvassing board is now making judgments on Coleman's challenge ballots — and their judgments overwhelmingly favor Franken.

Already today, Franken has picked up more than 200 votes.

By the Secretary of State's count of the Franken challenged ballot the board finished Wednesday, Coleman picked up 237 votes; Franken picked up 64 votes and neither candidate got 116 votes.

That gave Coleman a 361-vote lead, when the new votes were added into his 188-vote lead after the hand recount.

But now, Coleman-challenged ballots are up for debate and there are about 800 of them.

"Today, you'll likely see the numbers flip upside down as a significant number of those withdrawals go back into the Franken column," Mark Drake, Coleman spokesman, said in a statement.

The reversal is temporary, Coleman campaign officials said.

But Franken campaign officials say Franken is leading and will be leading when all ballots are included in the recount.

Marc Elias, Franken recount attorney, said today that Coleman is losing and therefore his campaign is attempting to disenfranchise voters.

This week, the Coleman campaign asked the canvassing board to toss about 150 votes, about 100 of which are in Franken-friendly Minneapolis, which might have been tallied twice in the recount. The

double voting occurred, campaign attorneys said, when ballot duplicates, created when ballots could not be read, were separated from their originals and both were counted.

Elias said the problem is imaginary.

"There was not duplicate counting," he said.

The canvassing board, made up of two Ramsey County judges, two Supreme Court justices and the Secretary of State, heard from the campaign attorneys on the issue Wednesday. It did not indicate when it will decide what to do about it and has set aside the ballots related to the issue.

Director of Elections for Minneapolis, Cindy Reichert, seems to concur with Coleman's assessment.

"I agree that there is a big issue here," Reichert said,

Reichert said it appears election judges working late into the night at the end of a long day made mistakes.

Here's how it's supposed to work: Original ballots that can't be fed through a counting machine are duplicated by an election judge. The original is set aside, and the duplicate is counted on election Day.

But during the recount, the Secretary of State's office requested the original ballot — not the duplicate — forcing elections judges to locate duplicates and match them to their originals. But in some cases, there were more originals than duplicates.

Reichert did not now exactly how many ballots were affected. "I know it happened in several precincts," Reichert said.

This afternoon the board will return to judging Coleman's challenged ballots.

Secretary of State Mark Ritchie said today that the state canvassing board had received 204 new challenged ballots from the Coleman campaign, part of the campaign's 800 challenges. Since those were received so late, they are unlikely to be dealt with this week.

The canvassing board is looking at Dec. 30 to deal with those.
