The Minnesota Supreme Court has made major amendments to Minnesota's court rules. The amendments will change the practice of law in Minnesota's state courts, and will go into effect on July 1, 2015. The Legal Counsel Division of the State Court Administrator's Office is offering presentations to help court staff, attorneys, and legal professionals understand the changes to the court rules. The changes will affect everyone who uses the court system.

Topics include:

- When to use the Court's eFS System for filing;
- When to use the eFS System for service;
- The new reason for rejecting filings;
- The new procedure for striking filings that contain restricted identifiers;
- The new option of non-notarized signatures; and
- The expansion of public access to court records.

An application is being made for 1.5 hours of CLE credit.
