Requestors MQSeries Client Information

IP Address³ _____

Username⁴ _____
Password _____

Created By _____

Date 5/9/2006

¹ Enter some information that describes your business unit.

² Contact person should be someone familiar with Network and MQSeries Client Administration.

³ The courts network staff will need to enter the requestors IP address into its firewall.

⁴ This is the Username and Password that you would like to have returned to you in messages. You can use this Username and Password to authenticate that messages you receive come from the court. They will be contained in WS-Addressing Username tokens within the soap header of received messages.
