Re: *In re to the Estate of Prince Rogers Nelson*
Court File No. 10-PR-16-46

State of Minnesota

Administrative File # 10CV16997

Dear First Judicial District Judge Kevin Eide,

I'm writing this out of my concern for the legacy and wishes of Prince Rogers Nelson. It is my understanding that no final will and testament has been found, but knowing how Prince Rogers Nelson was aware of the safety of hiding things in plain sight, I just want to make sure that any correspondence or wishes he might have left, have not been overlooked. At one time, Prince had a certificate which conveyed upon him, Honorary Citizenship of the State of Texas displayed in the hallway along with his Grammy's and Oscars, it was sort of an inside joke (understanding), but yet he hung that in a place of honor as if it was one of his many truly special accomplishments. I'm sure that the court and the Sheriffs have already x-rayed all of his framed honors and artwork to see if any messages were hidden within, but I needed to say something just in case. There are those who have access who may not want the true desires of Prince to be known publically, especially if it affects them in ways they feel gives them less than they believe they deserve. Prince's true concerns were not of amassing material goods or wealth, but of using music to open our eyes to our shared experiences, to address and heal our shared pain, and to open our hearts to our shared lives, our share loves, and our shared existence.

I wish you the best in the continued difficult endeavor to settle the estate of our beloved Prince Rogers Nelson, and to make sure those complicit in his death are held accountable. I pray his desires and wishes are upheld in all of your decisions.

Respectfully,

Letitia Nadine Dyer
