Case # 10-PR-16-46

Toledo, Oh. 43604

Dear Dr. Strobl,

My name is Shirley Camper, and I found out you did Prince R. Nelson's autopsy, and I am trying to tell Carver County Court and Fredrikson and Byron law firm. I found out in 2019 that the guy with burns on the front of his body that I called Chris is really Prince. I met him in 1979 and got pregnant by him in December.

I've asked the court several times for a DNA test for ancestry.com to find his child. Can you help me please. I met him through the Jackson family in Detroit. She deserves to know who her dad is.

How much will the test cost. I'll pay.

ESTATE

Dear Mr. J. Cassioppi,

My name is Shirley Camper and I have left several messages on your voice mail. Sir, it sounds to me like some misappropriated funds are going on. I'm asking you again are you exempted from using Ancestry.com.

If you are really looking for the heir of Prince R. Nelson, that is a really good place to start. My daughter deserves to know who her dad is. I met him in Sept of 1979 as Chris in December I found out he had burns on the front of his body and became pregnant in December. I met him at the Richard Jackson house in Detroit. Prince died in 2016 and your firm has been draggin your feet on finding his true heir. They both deserve it, it's now 2022. I deserve part of the pay for doing your job.
