

To whom it may concern;

Gregg Walker has been accused by the Personal Representative of communicating confidential information of the Estate to third parties, and he has been accused of distributing the "pitch book". To my knowledge, the "pitch book" that was presented to the Court by Wiggin and Barns was never shared with Gregg Walker. As a result, Gregg Walker does not know what the "pitch book" is.

As far as I am aware, Mr. Walker has never communicated confidential information of the Estate to third parties who don't have an NDA. I have seen the "pitch book" and as far as I am aware Mr. Walker has not distributed the "pitch book" to anyone. In addition, Mr. Walker never accessed the data room hosted by IntraLinks, Inc.

This statement is true under penalty of perjury
