Notice of Objections for the Sale of Galpin Property

II. Question to Review:

- (1) Is the Galpin Property part of an American Indian Reservation or is a non-reservation?**
- (2) Dose the Minnesota Probate Court and Minnesota Court Officials or Court Administration team have proper jurisdiction to determine or request the sale of Native American Land?**
- (3) Is the Galpin Property in the proper governmental court system?**

II. Statements of Objection

I Shawnetta T. Graham object to the sale of the Galpin Property, due to the fact it will bring about conflict between Native Americans of Minnesota and the United States of America.

I Shawnetta T. Graham object to the sale of the Galpin Property, due to the fact it will bring about conflict between the United States Supreme Court and the High Supreme Court of the Native Private Society who controls the flow of water to the world.

business man for a first term president with little war experience and if a war starts than President Donald J. Trump would have to draft.

I Shawnetta T. Graham object to the sale of the Galpin Property, due to the fact she remembers putting up a bond to cover all court cost, all expensive, & all estate taxes. It should be more than enough to cover court and estate expensive. So, the personal representative should use it to cover all related estate cost.

III Introduction to the Notice of Objections

I Shawnetta T. Graham is a legal citizen of North America and she is a register member of the High Society Native World. This mean there is a record of birth and and a record of transfer of owenership. I am presenting this notice to object the sale of Galpin Property due to the fact the late "Prince Rogers Nelson' in heritage the land from his late mother, and she was pure Minnesota Native American. If the court authorize the sale of the Galpin Property the new residents of the land will be open to attack by a foreign military force. It is best to reach out and discuss this matter with the local Minnesota Native Indian Tribal Chief for input on the future of the land.

Secondly, if you research the Late Prince Rogers Nelson's financial and economical records, the Late "Prince" did not have the finance behind him to build a complex such as Paisley Park during the complex construction period. It was a private investor. If it is a cost due to expensive estate representation or due to court estate settlements; I remember posting a

bond for the following: court cost, estate taxes, and other estate court expenses. The land does not need surveying it does not have any goal, any oil, any coal, or any silver. Some of the American (Indian) Natives' land were forcedly surveyed during the 60th and 70th. This situation was orchestrated by the United State Government. I was just a child, but I do know and understand how to handle such an issue today.

IV. Military Round-Up Participation

The thought of the sale of Gaplin Property should be dismissed by the probate court due to the fact it is a controversy on national ownership of the land per treaty established between two nations. The United States Military does not have the military force to fight a trillion members of the Native World National Army who are skinners and head-hunters.

Currently, the United States has a first-year president who has a business man background and has little experience in the WAR GAME. President Donald J. Trump would have to draft members for all branches of the United States Arm Forces. If in fact there is a valid Will, which I truly believe it is, if a war began the United States will have to pay the cost for clean-up. Due to the fact the laws of the land are not being followed by court representatives. If in fact United States is found guilty and have to pay per United Nation's Order; then United States might be facing a great economic

depression. If in fact my rights are continue to be violated; then, I will request that the United Nations “kick out” or “suspend” the United States membership, or request that the United States liquidate damages against me with homes, property, & land. In conclusion, is this human rights violation really worth it?
