Minnesota Pretrial Release Evaluation
Form and Assessment Tool-Revised

**MINNESOTA
JUDICIAL BRANCH**

*To provide justice through a system that assures equal access
for the fair and timely resolution of cases and controversies*
MJB Mission Statement

Agenda

- Why MNPAT-R matters
- User Guide & Questionnaire
- MNPAT-R
 - Scored Factors
 - Non-Scored Factors (by page)
- Entry Into CSTS (when live)
 - CSTS Mail Merge Demonstration
- Resources
 - Q&A

Why use the MNPAT-R?

- The MNPAT-R identifies the level of risk defendants pose of not appearing for a hearing or committing a crime during the pretrial period
- Statistically validated and shown to be more predictive than the MNPAT
- Equitable predictor among races and genders
- Provides consistent information for all stakeholders in their respective decision-making
- Also consistent across the state/jurisdictions (82 counties)

Key Characteristics of the MNPAT-R

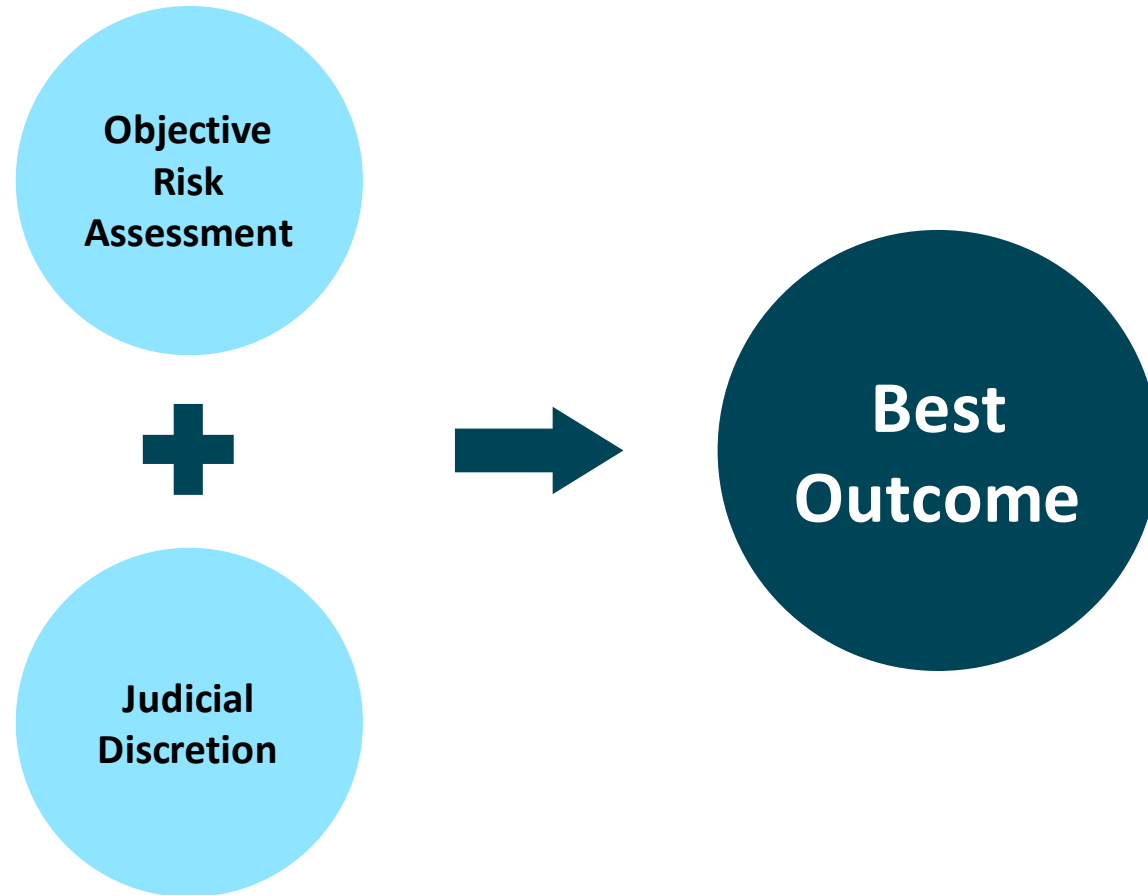

- The statewide form/tool cannot be changed or adapted by locality.
- Some factors assessed through a defendant interview
- If any factors are blank, that field was unable to be scored by probation/designee
- Probation does not recommend a release decision
 - *May offer pretrial conditions if the judge orders conditional release*

Not the Whole Picture

The MNPAT-R is **one** objective piece of information to be used in addition to a judge's experience and discretion to help determine risk.

Not the Whole Picture

Definitions

Form: Template for recording factors of a particular defendant and the current charge used to inform the pretrial release decision.

- *Does not assign a score or recommendation of release*

Tool: Research-based instrument comprised of predictive factors that are weighted and scored to provide a recommended pretrial release decision (based on categorized risk of pretrial failure).

- *Included on the form*
- *Provides a numeric score and category of risk*

Consistent Interview Process

- Enhancing procedural justice
 - Goal of training is to drive consistency during the implementation process
 - Each county may be collecting additional information in the interview for other purposes
 - How the interview/questionnaire is started will impact data quality
- Site visits from 2016 revealed varying practices in interviews
 - Some interviews were approached as conversations. Others were a checklist of questions to be answered. Some interviewers sought to get as much detail as possible for multiple purposes, others simply asked questions needed for the tool/form.

Pretrial Assessment Tool Section The pretrial risk score is intended to aid in determining whether to release a defendant or assign bail and/or conditions. The total scale score is a validated predictor of pretrial success or failure.

Pretrial Factor	Points Assigned
Employment/income sources or school status	Yes - 6 pts No - 0 pts
Pending case (targeted Misdemeanor or higher)	Yes - 8 pts No - 0 pts
Current Monitoring	Yes - 4 pts No - 0 pts
Total Scale Score Score range: 0 - 18	

Below is a description of the likelihood that a defendant will appear at all future hearings and not commit a new offense for each pretrial risk score.

Score	Likelihood of success	Level of Risk
0	between 79% and 89%	Lower
4	between 73% and 83%	Lower
6	between 67% and 78%	Moderate
8	between 61% and 73%	Moderate
10	between 56% and 70%	Moderate
12	between 53% and 68%	Higher
14	between 48% and 64%	Higher
18	between 45% and 62%	Higher

Level of risk by score:
Lower = 0 – 4 Moderate = 6 – 10 Higher = 12 – 18

Grey section total scale score validated predictor of pretrial success.

Revised to improve predictiveness overall and remove factors that contributed to bias.

How should the form be used?

Information from the form should:

- Help inform questions from the bench during the bail hearing
- Help inform the pretrial release decision, in addition to the pretrial risk score

Criminal Conviction Detail

- **Criminal conviction history:** List the offense, conviction date, and state or county for qualifying criminal convictions.
- Ensure only details on convictions are provided to the court
 - Include date, type, county
- CISR report may be provided, but may only include convictions
- The full CISR report (i.e. information in addition to convictions) should not be provided to judges, as the additional information may introduce bias based on non-convicted charges.

Criminal Conviction Detail

- Criminal conviction history does not have time parameters. All qualifying adult criminal cases should be included in the list.
- Include and list EJJ juvenile adjudications. If the EJJ is cleared, it should not be included in the list.
- Do not include non-EJJ juvenile adjudications Criminal Conviction History.
- Do not include cases that have received a Stay of Adjudication (SOA), regardless of offense level.

Out of State Convictions

If a defendant has convictions from outside Minnesota and that state's offense classifications are different, classify the offenses by the sentence.

- 90 days or less as a misdemeanor,
- 364 days or less as a gross misdemeanor, and
- 1 year or more as a felony.
- If specific sentence information is unavailable, assign and list the conviction as a misdemeanor.

Failure to Appear Bench Warrants

- Include bench warrants for failure to appear three years prior from the date of screening. For example, if the defendant was screened on 2/1/2024, warrants from 2/1/2021 – 2/1/2024 would be included on the list.
- Include failure to appear bench warrants originating from family court.
- Do not include Fail to Appear bench warrants that have a comment stating failure to abide by conditions of release.
- Do not include Failure to Appear bench warrants that are issued as a result of a missed initial hearing from a summons.
- Do not include failure to appear warrants if the defendant failed to appear as a result of being held in custody in another jurisdiction (including ICE custody). This is often noted in the warrant comments or denoted by a Hold and Release Warrant type.
- If the client was to appear in court on the same day for multiple cases and failed to appear, only one bench warrant should be included.

Entry Into CSTS Module

- **Enter within 5 days**

Enter the collected MNPAT-R data into the CSTS module as soon as practicable, but **no later than 5 business days following the first appearance**.

- **Refused/unknown fields**

If client refuses to answer a scored field on the **Pretrial Assessment Tool** section (grey portion), the agent should select “Unknown” in the CSTS module. This will populate “Could not score” in the field on the form. The remainder of the form should still be completed, scored (including the total score), and provided to the bench and stakeholders with the available information.

- **Collateral/Victim Sources**

Ask the client who can be called to verify the information. Potential contacts include, but are not limited to parents, siblings, significant others, adult children, family members, and friends. Contacts should be over 18 years of age.

The screenshot displays the Minnesota Judicial Branch website. At the top, there is a dark header with the Minnesota Judicial Branch logo and name. To the right of the logo is a search bar with a magnifying glass icon. Below the header is a navigation bar with links: HELP TOPICS, FIND COURTS, PAY FINES, GET FORMS, ACCESS CASE RECORDS, and FILE A CASE. Below this is a secondary navigation bar with links: Attorneys, Jurors, Government Partners, Media, and Teachers and Students. The main content area is titled "Pretrial Release Initiative". Below this title is a horizontal menu with tabs: Overview, Updates, Assessment Tool, Definitions, Resources, Validation Study, and Contact Us. The "Resources" tab is highlighted with a purple border. The content under the "Resources" tab includes several paragraphs of text. The first paragraph states: "The **Minnesota Judicial Council**'s Pretrial Release Initiative, one of the Strategic Initiatives of the Branch, is aimed at studying evidence-based tools for use by judges making pretrial release decisions." The second paragraph states: "Under **Minn. Stat. § 629.74** Minnesota Judicial Council approves pretrial evaluation forms to be used in each county. **Minnesota Judicial Council policy 524: Pretrial Release Evaluation**, adopts the use of a statewide pretrial evaluation form and Minnesota Pretrial Assessment Tool (**MNPAT**) and directs the use of pretrial risk assessment tools in Minnesota District Courts." The third paragraph states: "The assessment tool is meant to ensure that judges have the most predictive and least biased information, providing accurate, objective, and useful information for pretrial release decisions." The fourth paragraph states: "The assessment tools will be validated to ensure effectiveness and fairness in release decisions." The fifth paragraph states: "The Minnesota Judicial Council established the Pretrial Release Initiative Implementation Steering Committee to implement the statewide pretrial risk assessment tool and form. Implementation was completed in late 2018. The Steering Committee included public and private attorneys, probation representatives and law enforcement, court administration, and judges."
