

## Expedited Process Child Support Filing Codes Index

### Introduction

This index applies to external filings from parties in the Expedited Child Support Process only. It is intended to provide guidance to court partners who file high volumes of documents. It is not intended to prescribe or require the filing of certain documents or to direct the order in which they are filed. Expedited Process case processing is complex due to federal reporting needs and specific codes are necessary for tracking purposes. Use of these filing codes will help court staff quickly and accurately process filings.
